-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-29 and 55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are:  
means/component for performing all the steps in independent claim 1 (since this claim is a system/an apparatus claim).
4. Claim 55 recites the limitation "computer-implemented process" in line 1. There is insufficient antecedent basis for this limitation in the claim.

### ***Conclusion***

5. This application is in condition for allowance except for the following formal matters:

The rejection to claims 1-29 and 55.

Art Unit: 2624

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

6. Claims 30-54 are allowed.
7. The following is a statement of reasons for the indication of allowable subject matter:

The present invention provides a new method and computer product for determining an optimal compression for reducing the size of an electronic file or document having at least one embedded or linked image, which is capable of tailoring image resolution to particular output devices and of discarding non-essential data (specification, page 4, first paragraph), and can prevent cumulative degradation of images through repeated lossy compression (specification, page 5, first paragraph).

In particular, the prior art, either taken singly or in combination, does not teach:

- discarding unnecessary data associated with each associated image; and determining an optimal compression method for each associated image based on the characteristics of each associated image (see independent claim 30);
- automatically setting a resolution of each image based on the output destination of the electronic file; discarding unnecessary data associated with each embedded image (see independent claim 46).

Art Unit: 2624

**Contact Information**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
